

Zurich investment foundation

Infrastructure

Innovative and customized investment solution for Swiss pension funds

Zurich Investment Foundation (ZIF) Infrastructure offers attractive returns through investments in defensive brownfield infrastructure projects that are characterized by durable assets and contractual tariffs that are linked to the inflation.

Your advantages at a glance

- **Zurich investment foundation Infrastructure invests in stable brownfield infrastructure assets. These are operating and have limited revenue and financing risks**
- **ZIF Infrastructure targets stable returns with a current yield and long term inflation protection**
- **The investment approach is based on co-investments and thus combines the diversification advantage of a fund of funds with the cost advantage of direct investments**
- **Managed by an experienced, successful and industry leading investment manager with access to the most recognized infrastructure managers**
- **Independent selection and monitoring of the investment manager by Zurich Invest Ltd**
- **Modest management fee, based on cost of capital invested and not on capital committed**

Investment universe

ZIF Infrastructure mainly invests in infrastructure co-investments. Investors therefore benefit from manager diversification while keeping a single level of management fees. The program targets 10-15 infrastructure assets across various sectors and regions. The co-investments (60-100% of portfolio) are complemented with secondaries (0-30%). A commitment to a primary fund (0-20%) will only be considered to access further regions or sectors that are not covered by co-investments or secondary investments.

Investment process

GCM Grosvenor is responsible for selection and the due diligence of the co-investments as well for the secondary and primary fund investments. A proactive sourcing and a comprehensive due diligence process ensure that investors are well compensated for the risks.

Co-Investments

- Market leader in infrastructure leading to wide sourcing capabilities
- 60-80 co-investment opportunities reviewed annually

Secondaries

- 60 opportunities analyzed over past 3 years

Primaries

- Cover entire infrastructure market globally
- Over 125 managers reviewed over past 3 years

Solid Fundament

- Dedicated team (6 team members supported by 5 associates and analysts) with operational and financial background
- Experienced across all sectors
- Proven infrastructure track record as of March 31, 2013 (8.9% IRR in aggregate infrastructure)
- Benefit from private equity network, built over ten years
- In-house manager database with more than 150 infrastructure managers
- State-of-the-art systems to analyze and monitor private market investments

Manager

GCM Grosvenor

GCM Grosvenor is specialized in customized mandates for large institutions in private markets and real assets. It has spanned investments across infrastructure sectors on a global basis since 2003. It has over USD 2bn in infrastructure commitments under management, making the group one of the world's largest infrastructure investors.

Infrastructure

ZIF Infrastructure mainly invests in infrastructure co-investments. Investors therefore benefit from manager diversification while keeping a single level of management fees. The program targets 10-15 infrastructure assets across various sectors and regions.
