Your advantages at a glance:

- attractive return opportunities through participation in the «Swiss Top Fifteen Select Index»
- return boost of 10 percent on the performance of the index
- full capital protection in the event of performance of up to minus 30 percent
- no foreign currency risk and no custody account fees
- term of five years and right of sale at any time at market price

What is important for you?

- You want an attractive financial investment with reduced loss risk.
- You would like to invest in Swiss equities and profit from upward trends on the Swiss equity market (no foreign currency risk).
- You want to avoid any long-term commitments and remain flexible at all times.

The ideal solution from Zurich Invest Ltd

Zurich Invest Certificate allows you to invest in a well-diversified sustainable Swiss equities index. You enjoy potential gains of up to 50 percent from stock price appreciation. Simultaneously, you enjoy lower capital risk thanks to a sophisticated value buffering mechanism.

Responsible investing with attractive potential returns

Your invested capital participates in price gains of the «Swiss Top Fifteen Select Index», comprised of stocks of 15 leading Swiss firms.

Key benefit

On top of the index return, you get a **return boost of 10 percent**, subject to a return cap of 50 percent.

Swiss Top Fifteen Index

Performance lock-in

If the performance of the index reaches the profit protection threshold of 20 percent in the last two contract years, you benefit from a guaranteed minimum payout of 120 percent of your premium at maturity.

Sophisticated value protection mechanism

Your capital is fully protected in case of negative performance of the «Swiss Top Fifteen Select Index» down to minus 30 percent (buffer zone). Even if this scenario occurs, you still get your full invested sum back upon expiration of the contract. You only suffer a loss on your investment in case of a value decline exceeding 30 percent. In this case, the payout value is calculated as triple the negative performance figure minus the buffer.

We would be happy to advise you personally on this matter.
